

WHO WE ARE

Founded in 2013 as registered firm for IT, research and software services. **SCIENTIAARC** inspires action, serves clients, and supports communities. We are driven by a firm belief in the power of humanity. As the trusted Research Foundation in India, we provide long-term solutions and benefits for those who may need assistance in pursuing their dreams. At **SCIENTIAARC**, we are inspired each day by the work we do and feel such a sense of accomplishment with each success story that comes from past or present recipients. Sometimes, the best solutions come from the people who are most affected by the problem and we want to be the center stage of their success. Now, we are becoming an important part of the research community. Working hard to help recipients from all over the world our contributions go towards helping make dreams come true. At **SCIENTIAARC**, we value the essence of giving and go the extra mile to provide those in need with a wide range of opportunities that will allow them to reach their potential.
